

OUR WAVES *whisper,* OUR LUXURY *roars.*™

ucked into the crescent curve of secluded Rendezvous Bay and surrounded by sparkling turquoise waters and powdery white sand is the award-winning CuisinArt Resort & Spa. Lush gardens wind their way past the infinity pool to oceanfront villas, each with spectacular views of the Caribbean Sea. Over 40,000 trees, flowers, and shrubs form an award-winning botanical tapestry of color and fragrance throughout the grounds.

Accommodations: Each of the 93 luxurious guest rooms and suites at CuisinArt Resort & Spa is graciously expansive, ranging from 900 to more than 7,500 square feet. Thoughtfully appointed with custom-designed fabrics and furnishings, all air-conditioned rooms offer guests extraordinary sea views.

Spa: At the Venus Spa, guests nurture their spirit and reconnect with their senses. Renew with soothing massages, wraps, customized facials and natural skin and body treatments. Recharge with yoga and Pilates classes and a state-of-the-art fitness center. An internationally trained staff will cater to every whim. The Spa will triple in size with a 19,000-square-foot addition, scheduled to debut in the summer of 2008. Planned additions include areas for hydrotherapy and an exclusively designed Thalasso pool, where

guests soak in heated Anguillian sea water; a natural, mineral-based therapy favored for its healing properties.

Hydroponic Farm: Fresh is redefined in the world's first resort-based hydroponic farm. Vines floating in water and nutrients yield succulent vegetables, edible flowers, and herbs – never picked before their prime, and free of pollutants.

Cuisine: Guests enjoy casual or fine dining at the resort's two exceptional restaurants. Café Mediterraneo offers poolside breakfast, lunch and, at night, casual brasserie fare of stone-oven pizzas, salads and grilled meats. For more elegant dining, Santorini offers sophisticated island cuisine, complemented by its very own wine cellar. Discover the secrets of our Chef's cuisine at the exclusive Chef's Table. The Lounge Bar offers luscious drinks and snacks with live music nightly.
